Adam worked with our company early in the developmental stage ...By Carolyn Moor Adam worked with our company early in the developmental stage of launching. His ability to zero in on the important tasks at hand to build traction helped our Modern Widows Club to get where it is today. By making smaller decisions for bigger overall impact, I am now able to look back after 3 years and see the value of understanding his knowledge and wisdom for anyone starting out with a new enterprise. You'll find secrets or strategies, but also more clarity around why you are deciding to spend your limited resources and energy on specific endeavors. This book can be read in a weekend, but the value will last a lifetime. If you feel you are unable to get the results you want, this book will assist you in reviewing the landscape in which you are working, find a balance, and then, scale your efforts for the desired results in the future. You are only one person, so every minute counts. Tap into Adam's book and find an easier way to be successful. 0 of 0 people found the following review helpful. Direct without fluff. A winner.
